Departure of Steamers.

FOR COLLINGWOOD AND THE EAST.

The Collingwood line of screw steamers sail—one every day, from Dousman's dock, foot of East Water st., connecting at Collingwood with cars from the East.

FOR BUFFALO.

Screw steamers, with good accommodations for passengers, leave the different transportation docks every day for Buffalo.

FOR PORT WASHINGTON, &C.

The Steamer Gazelle leaves Johnson & Olmsted's Dock at 8 o'clock in the morning, for Port Washington, Sheboygan, Manitowoc and Two Rivers.

FOR CHICAGO, &C.

The steamer Traveller leaves Johnson & Olmsted's Dock every evening, at 7 o'clock, for Chicago and intermediate ports.

REPUBLICAN MEETING.

A MEETING of the Republicans of the Ninth Assembly District, comprising the Towns of Lake, Oak Creek and Franklin, will be held at the house of M. L. HOBART, in the village of Oak Creek, on Saturday, the 27th day of August instant, at two o'clock P. M., for the purpose of appointing two delegates to represent said District in the State Convention held at Madison, August 31st. [td] BY ORDER OF COMMITTEE.

The Foreign News.

According to the Paris correspondent of the London *Times*, the Governments of France and England have both conditionally agreed to a general disarmament by land and sea. Upon these conditions, England consents to send a representative to the Congress at Zurich. The Paris papers assert that the proposition proceeded in the first instance from Napoleon, and the English Government is reported to be well pleased with the conduct of the French Emperor. If this be true, it will relieve the English people from the enormous taxation, incident to the proposed increase of the Army and Navy, besides freeing their minds from the visions of a "French Invasion," which appear to have haunted them ever since Napoleon I. conceived the idea of subduing England. The London *Times*, however, is loth to believe in the sincerity of France in making the proposition, and urges the immediate arming of the Navy with rifle cannon.

The advices from Italy are rather meagre. The Sardinian army is to be increased to 200,000 men by addition of recruits in Lombardy. GARIBALDI's corps consists of some 12,000 men, and was being constantly augmented by volunteers. He is said to have expressed confidence in the King of Sardinia's not forsaking the Italian cause. His forces, added to those of MEZZOCAPO and 50,000 volunteers in the Romagna, it is believed, will form an army capable of maintaining the Independence of Central Italy. The people of Modena and Tuscany still protest vigorously against the re-instatement of their former rulers and the municipality of Florence has formally expressed the desire that Tuscany be either annexed to the Italian Kingdom or governed by a Prince of the House of Savoy.

A fend that may be difficult to quell, has arisen between the Pontificial Government and Sardinia, and the former has called for the assistance of foreign powers, in vindication of what it terms its rights. A strong movement is on foot in Romagna against the return of the Clerical government, and in favor of a union with Sardinia. The Zurich conference, we apprehend, will find its hands full in uniting the "confederation" under the presidency of the Pope, allowing that His Holiness would assent to preside over such a conglomoration of discordant elements as the Villafranca treaty contemplated uniting.

The Slave Trade.

U. S. Marshal BLACKBURN authorizes the statement that a cargo of *six hundred* African slaves had been successfully landed on the coast of Florida. The vessel which landed them was burned. Perhaps our Democratic brethren here at the North, will become convinced in time, that the re-opening of the slave trade is not altogether an abstraction.

New Gold Discoveries.

A despatch from St. Louis announces the discovery of new and rich gold diggings in the Pike's Peak region, near the head waters of the Colorado. There was great excitement at the mines, and hundreds were said to be leaving daily for the new diggings.

Fine Show of Wheat.

The exhibit of samples of new wheat on Change on Saturday morning was very fine, and did the eyes of our grain dealers good. Some of the oldest members of the Board of Trade averred that it was the finest show of wheat ever made in this city. The receipts were large, both of Winter and Spring, and commission dealers, being anxious to sell on track it possible, took samples of each car load with them. If the crop of Illinois will average as high as the display on Saturday last, there will be no need of apologizing for "Chicago Spring" in Eastern markets, or of labelling it "Milwaukee Club."—*Chicago Press & Tribune.*

We are glad of it, and we are also pleased to be able to inform our Chicago neighbors that if the samples of Wisconsin Spring Wheat which have been exhibited are any indication of what the crop is to be, they may still find it convenient to steal our label.

"THE WISCONSIN CHIEF" comes to us in the last stages of consumption. Its once ample folds have shrunk to a six by eight affair, which contains the following:

Many of our friends have known that since the first year —which was one of sickness and sorrow to us—we have had a struggle to keep the *Chief* going, and retain the establishment. Those who had the power have this week taken possession. The list and books, being unencumbered, are still our own, and as soon as possible we shall have a new office, and with everything neat and sea-worthy bring out the old craft with more than olden-time vigor.

We hope our friend BROWN will keep a stiff upper lip, and we, with the rest of his friends, will anxiously await the re-appearing of the *Chief*.

FATAL ACCIDENT AT BLACK RIVER FALLS.—On Saturday, the 23d ult., at nbout four o'clock, a man named J. B. SMITH, the engineer at SHEPPARD's Mill, was killed in the following manner: He was engaged with a handspike in adjusting something about the circular saw, when his spike slipped and was caught on the saw, thrown violently round, striking him in the abdomen. The unfortunate man immediately remarked that the blow would kill him; but he was able to walk to the engine room, and survived till Sunday at 6 P. M. He was an unmarried man, about 30 years old. He came from La Crosse, and it is reported that he left considerable property.

ONE MORE UNFORTUNATE WEARY OF BREATH.—The last issue of the *Wisconsin Pinery* contains the valedictory of A. G. ELLIS, whose connection with that paper has closed. In reviewing his long and eventful career as an editor and faithful Democrat, he finds nothing to regret. His experienced pen will be missed from the ranks of the Democracy very much. Peace be with him in his retirement.

PREVALENCE OF SUICIDES.—The N. Y. *Times*, of Wednesday, says:—"Of the twenty-six cases of suicide that we record this morning, eleven were accompanied by hanging, six by the use of the razor or knife, six by poisoning, and three by drowning. The alleged cause in six cases was insanity; in two, rum; one victim, by a letter found in his pocket, charged his reputable wife with his ruin; one, lately widowed, was living with a lewd woman, and his pure wife's ghost haunted him; one was tired of humbugs and hoped they would spare his remains the humbug of a funeral; one was hard up for money; one died of the slander that an unfriendly neighbor uttered; two—wealthy men—were shattered by excessive anxiety about their business; and one, a lady of good character, chose to die rather than navigate longer a sea so shut in with clouds and fogs. Only three were women; most of the men were unmarried. Only one, a butcher, pleaded the knocks and bruises of poverty—most of them, the neighbors thought, were in comfortable competent condition. Mr HEMMENWAY, of the People's Insurance Company, Mass., was worth $100,000.—JOHN SMITH, of Barre, oppressed with excessive business cares, fell to meditating Mr HEMMENWAY's untimely issue, though naturally a man of honor, and worth $800,000, and hung himself."

THE STEAM PLOW.—The Philadelphia Society for promoting Agriculture held a meeting on Wednesday, when the Committee on Implements and Invention, presented a long report, giving a description of the steam plow, and its performances at Oxford Park, the substance of which is, that the machine was tested on timothy sod which had not been plowed for seven years. The machine turns around as easily and in as short a time as could be done by a single plow and pair of horses. The mean rate of speed was four miles an hour, and the united furrows were nine feet four inches wide. This is a strip equal to 107,120 feet, plowed in one hour, which, divided by the number of feet in an acre, gives almost exactly 4 1-10 acres per hour.

One fireman and one engineer only are required to work the engine and the plows.—The coal it consumes per day is only half a ton. The plow was run over gulleys and abrupt elevations.

Another feature of this novel invention is, that by a very simple arrangement, the roller, which is composed of wooden staves which are bolted to open iron heads, may be lifted from the ground, geared directly to the piston-rod, and thus converted into a farm engine for driving saws, threshing machines, sugar and grain mills, &c.

This plow is well adapted to prairie cultivation and to the tillage of large fields.

EXPORTS AND IMPORTS OF NEW YORK.—The imports at New York for the first seven months of the year 1859, were as follows:—

	1859	vs	1858
January	19,877,000		7,706,000
February	18,756,000		8,202,000
March	20,720,000		11,456,000
April	22,138,000		10,644,000
May	23,430,000		11,130,000
June	12,684,000		10,014,000
July	27,711,000		18,120,000
Total 7 months	$155,547,000		$75,476,000
Foreign Specie	1,301,000		1,817,000

The exports of domestic produce during the same time were $33,374,000 in 1859, against $33,362,000 in 1858. Foreign goods re-exported this year $8,178,000, against $3,411,000 last year. Together $36,547,000 in this year, against $36,763,000 last year.

EXPORT OF SPECIE FROM NEW YORK.

	1859	vs	1858
January	$2,206,000		$4,746,000
February	2,371,000		2,747,000
March	3,545,000		886,000
April	6,239,000		645,000
May	11,491,000		1,791,000
June	7,497,000		864,000
July	10,091,000		2,861,000
Total 7 months	$43,250,000		$15,161,000

EXPORTS FROM NEW YORK—RECAPITULATED.

	1859	vs.	1858
Domestic produce	$33,374,000		$33,362,000
Foreign Re-exported	3,173,000		3,411,000
Specie	43,250,000		15,924,000
Total 7 months	$79,797,000		$52,161,000
Increase since Jan. 1			$27,676,000

A SINGULAR CASE.—VIRGINIA STEWART, who was shot a fortnight ago by her paramour, died on Friday at 3 o'clock, at the New York Hospital, just thirteen days after she was shot. During most of that time the patient was unconscious, and her few lucid intervals were of short duration. The case attracted a great deal of the attention of medical men, from the fact that she lingered so long with a bullet in her brain. Dr. HULL, house-surgeon of the hospital, who attended her, has made a very minute *post mortem* examination. The ball was found close by the orifice of the wound, in the left hemisphere of the brain, and a piece of the skull, corresponding in size to the ball, was found behind it. The skull was fractured in the vicinity of the wound, and a quantity of extravasated blood was found between the scalp and the bone. It is regarded by medical men as one of the most extraordinary cases on record.

PREPARATIONS FOR WAR IN BUENOS AYRES.—Advices from Buenos Ayres to the 26 June, received at New York, states that very active and extensive preparations were being made for war with the Argentine Confederation, and already troops had been sent up the river, and communication with Rosario stopped; but actual hostilities in the field were not expected to commence before October next, at which time summer commences. Freights were very scarce at Buenos Ayres, and several American vessels had left that port for Rosario in search of employment.

PERIODICAL CALAMITY.—The New York *Times* endeavors to show that a suicidal epedemic is prevailing. The *Tribune* devotes a whole column to the subject of periodical railroad accidents. Both these journals seem to think that some unaccountable law governs national calamities, which move in circles, visiting the earth only at stated periods. A suggestive theory for the Scientific Convention now in session.

A BERRY GOOD TIME.—The editor of the *Jackson County Banner* has been camping out on the bluffs for two days and nights, in company with a select party of male and female friends, shooting chickens, picking whortleberries and having a "splendid" time generally. The biggest part of the story is contained in these words: "After having a glorious good time we returned to town with *fifteen bushels* of whortleberries, all of our own party's picking."

GARIBALDI'S POPULARITY IN ITALY.—Mr. Raymond, writing to the *Times* from Como, says of Northern Italy and Garibaldi: It is in the towns and large villages that political activity finds its life. It is mechanics and tradesmen, clerks, and young men of all classes and conditions, who keep up political agitations here, and constitute the public sentiment of the country. They are intelligent, spirited and adventurous; never fond of much government of any kind and most at home in social storms and civil tumults. They have a good deal of patriotism, and still more love of excitement, and each of these passions feeds the other. Garibaldi is their great hero; his character, rash, reckless and dashing, suits them exactly; and it is in this region that his striking exploits of war were performed. His name is twice on their lips where the King's is once, and after the war is over, he will be stronger than ever in their affections. He will have acquired an influence throughout Italy, which cannot safely be disregarded.

THE CROPS IN GREAT BRITAIN.—The question of the crops in Great Britain is one of great importance to the United States, affecting more or less the interests of every producer and consumer in the country. The Liverpool advices to the 22nd of July state that the weather continued very hot, with violent thunder storms and rain:

"Some damage is reported to wheat and barley, but all green crops will be much benefitted. Harvesting has commenced in early districts, and will soon be general. It is yet too soon to form a correct estimate of the crops, but the popular opinion is that wheat is a good crop in England—perhaps not so large as last year—in Scotland and Ireland, a large crop. Spring grain and root crops have suffered, owing to long continued dry weather. In Scotland and Ireland oats are reported as very short in the straw and prematurely ripe. Potatoes are not so good as last year, when the crop was enormous, and of superior quality. In some districts hay and grass are deficient. In France the wheat crop is not expected to be so large or of such good quality as last year. Spain, which has been an importer the last three years, has an abundant harvest. The last crop of Indian corn in the Danubian Principalities was very large, and shipments are now in progress on a liberal scale.

Farmers still hold a good deal of the last crop, and the stock of foreign (principally French) wheat and flour, is very heavy in all the ports. Assuming our harvest to be well secured, there is every prospect of a continuance of low prices. The next few weeks will decide."

SEVEN THOUSAND NEGROS CELEBRATING.—The twenty-fifth anniversary of the emancipation of slaves in the British West Indies, was celebrated on the 1st, at Sandwich, Canada, with great spirit by the colored citizens, mostly American slaves who had freed themselves. The celebration was held in the handsome grove belonging to Col. PRINCE, and the Detroit *Advertiser* estimates the colored persons assembled at 7,000, and everything was conducted in good order. Speeches were made by Col. PRINCE, ELI FORD, of Chicago, and others. The *Advertiser* says:

Among those who seemed to be contented and happy, we noticed the rescued girl "Lina," who informed us, on inquiring, that she liked living in Canada better and better every day. The thirteen slaves located from slavery by "old John Brown," and the "young John Brown" born on the journey to Canada, were "celebrating" also. They gave us to understand that they had been burned out since their arrival at Windsor — They are comfortable now, having plenty of work to keep them busy, and a great many good friends willing to lend a helping hand.

All of the participants in the festivities were well and comfortably dressed, and looked as though they had plenty to eat and drink. We never saw a gathering of any kind as large as the one at Sandwich yesterday, where more decorum was observed.—The day's pleasure closed with several balls at Windsor, and in this city.

THE CITY.

SENTINEL READING ROOM.

WE have opened in connection with our new Counting Room, 307 East Water st., a Reading Department where all the leading Daily Papers in the United States and Canada are regularly placed on file, for the benefit of those who may wish to see them. Strangers visiting the city are invited to avail themselves of our "Free Reading Room" at their pleasure.

Important if True.

A rumor was current about the streets yesterday, to the effect that a recent decision of the Supreme Court puts our Municipal Court out of existence, or rather establishes the fact that it never has had a legal existence. The case before the Supreme Court, came up upon the question of the validity of an act removing the County Seat of Iowa County. That act is decided to be null and void because it was not published in accordance with the laws of the State. It was a general law but was erroneously published amongst the local enactments, and on this ground we understand the Court to have based its decision. The same informality having attended the publication of the act establishing the Municipal Court in this County, by analogy it is asserted that the decision annuls that enactment, and if we understand it correctly, re-establishes the Police Court.

THE TRAINED DOGS AND MONKEYS were greeted with a great crowd last night, and we can say, with all confidence, that a more mirth-provoking, interesting and instructive entertainment was never witnessed in this city. Never before has Albany Hall resounded with more hearty outbursts of laughter than from the people there assembled last night. A monkey, at any time, is enough to attract the attention of us all, old and young, but when we see them aping their more human prototypes, the effect is truly "side-splitting."

The bills promised much (as they usually do) and we were prepared to witness a clever entertainment, but it far exceeded our most sanguine expectations; all, and even more, was performed, than promised. The amount of intelligence these animals display, the manner in which they perform their feats, is astonishing. It must have required long and patient labor on the part of SIG. DONETTI (the trainer) to produce such results. We have not time to particularize any scene, but say to all, go and see for yourselves.

We are pleased to notice that a grand day performance will be given on Wednesday afternoon, for the accommodation of ladies and children.

SOMETHING WONDERFUL.—In the fourth story of the *Sentinel* office, there is an immense tank, holding an incredible number of gallons. This tank is filled with water pumped from the river by steam power. In this reservoir was discovered a water snake, serpent or eel, a day or two ago, and it became evident to those aware of the circumstance, that the reptile must have been pumped up through the two inch pipe, perhaps when in an unhatched state.

However he came there, he *is* there, and the most singulrr thing connected with the affair is its voracious appetite, and the no less astonishing power which it possesses of elongating its body to almost any length.

It remains in the tank, no one as yet having had the courage to remove it. The hundreds of curious people who have already visited this wonderful animal will testify to its being a bona fide snake, and no Feejee mermaid arrangement. The intelligent local of the *Democrat* yesterday made a scientific examination, and pronounced it a veritable sea serpent.

For further particulars, apply at the *Sentinel* office, between the hours of 12 and 1—the locale being at dinner then.

FORGERY—A ROGUE CAUGHT.—Messrs. CONOVER and POWERS, Detectives of this city, learned that a firm of Cleveland, Ohio had recently, by false pretences and forgery, been swindled out of about $700 worth of goods, by a man named J. D. PRATT.—Messrs. C. & P. were employed to catch the man and recover the goods. They succeeded in recovering all the goods, which were scattered about at different places, and learned that PRATT had gone to either Fond du Lac or Oshkosh. Deputy Sheriff CAPRON was dispatched for the man PRATT, who arrested him at Oshkosh, and returned here with him on Saturday last and lodged him in Jail. PRATT will doubtless be immediately taken back to Cleveland for trial.

TO-MORROW MORNING at 10 o'clock, CALEB WALL sells at public auction, five hundred boxes of superfine hard soap, from a Boston factory, in small bars; also dry goods and furniture.

[Original.]

LITTLE MARY!

LINES ADDRESSED TO LITTLE MARY H——.

I know a little cherub girl,
Not far from two years old;
Her every movement full of grace,
Elfin formed in beauty's mould;
And on her baby brow there dwells
So much of sweet repose;
I; breathes of pure Elysian joys,
And nought of earth born woes.

Her hair is of a chestnut brown,
Her neck of spotless white,
Her eyes of soft, yet sparkling jet,
For earth are all too bright;
About her infant form there floats
A witching, pleasing charm,
As 'round her youthful mother's neck
Are twined her baby arms.

Thou hast a cherub smile, sweet babe,
The coldest heart 'twould win;
And such a cheering face is thine,
To *all* some joy 'twill bring;
There's music in thy laugh, sweet babe,
Which tells of nought but bliss;
I; breathes too much of happiness
For such a world as this.

Thou hast a spirit pure, sweet babe,
Of purity divine;
Ah! none but childhood boasts as much,
A soul all pure as thine;
I would that thou might'st ever be,
Sweet babe, as thou art now;
I would not have a darksome cloud
To settle on thy brow.

I'd ever have thee, darling one,
As at this joyous hour;
I would that thou might'st never feel
Affliction's scorching power.
I would that thou might'st pass unscathed
Through such a world as this,
And take thy flight on cherub wings
To one of endless bliss.

Milwaukee, August 8, 1859. AUGUSTA.

ANOTHER CANAL STEAMER.—"The Canal steamer *Rotary*, of New York, made her first appearance in our waters this morning," says the Rochester *Union* of the 2nd, "on her trip westward. This craft is one of the largest size that can pass the locks, and has a screw propeller driven by a rotary engine. She is said to be a comely craft, and one that moves rapidly along the canal. The *Rotary* had on a cargo of over one hundred tons for Buffalo, and left at eleven o'clock, after taking in coal at CART's yard. This boat has, we understand, navigated some of the Southern canals. We have no figures of the time made on the trip, but the Captain declared that he could run his boat with a load from Troy to Rochester in three days. He further declared his intention to go to Cleveland or Detroit for a load to return with, and thus further demonstrate the practicability of Lake navigation by canal craft."

The *Rotary* arrived in this city yesterday afternoon about half past five o'clock, having made the trip from Troy, with a cargo of 80 tons, in four days and four hours. She comes consigned to Messrs. WILLIAM PERRIN & Co., the agents of Messrs. POAG, DAVIS & Co., of the Western States Line, New York, who are her owners. She has a rotary engine of eighty horse power, which is very small and compact; and is propelled by a screw wheel in the stern of the boat.—*Buffalo Express.*

TIBBITS, STARKWEATHER & Co., are the Agents, at La Crosse & Mil. R. R. Docks. The New York & Western States Line have in their service all the Steam Canal Boats now in commission on the Erie Canal, except the *Ruggles*, the *Rotary* being the tenth steam boat in the Line. Offices in New York 171 Broadway and 113 Broad street. They bring goods at the same rates as *horse boats*, and in from 5 to 7 days to Buffalo.

MUNICIPAL COURT—HIS HONOR, JUDGE FOOTE, PRESIDING.—MONDAY, Aug. 8.—Patrick Hensley, drunk; case held open until 9 A. M to-morrow.

Philip Pflueger and Ernest Zeska, disorderly; discharged.

E. W. Severance, fast driving in city limits; discontinued until August 29th at 9 A. M.

Joseph W. Haskin, obtaining notes, &c., by false pretences; case adjourned until the 12th of September. Prisoner gave bail in the sum of $1,000.

The old court room in the police building having been fitted up and re-arranged, the Municipal Court will hereafter be held in its old place. The room has been enlarged—the Judge's desk and the bar moved to the opposite end, and every convenience, both for the officers and the public, added to the apartment.

A CARD.—Having had policies of Insurance in the following Companies, on my buildings lately destroyed by fire, I take pleasure in recommending them to that portion of the citizens of Milwaukee and vicinity who may have occasion to get their property insured. The names of the Companies and the amounts of their losses are as follows:

North American of Hartford, Conn.	$5,000 00
Charter Oak,	5,000 00
Western Massachusetts, of Pittsfield, Mass.	5,000 00
Conway of Conway, Mass.	5,000 00
Hampden of Springfield, Mass.	2,000 00

J. W. CRAIN, the gentlemanly Agent for these Companies in this city, has promptly paid me all my claims in full, long before maturity. That these Companies are good and responsible, I am satisfied beyond any doubt. Persons insuring with Mr. CRAIN can rest assured if they meet with a loss by fire, that their policies will prove a sure indemnity, and that he will adjust their claims equitably and with promptness.

Milwaukee, August 6th, 1859.
W. P. YOUNG.

SATURDAY EVENING ALE. BURNETT gave his second entertainment at Albany Hall, to a delighted audience. The rapidity with which he metamorphosed himself into a Yankee, Irishman, German and Frenchman successively was astonishing. Mr. BURNETT made many warm friends during his stay among us and we recommend him to the intelligent public wherever he may go. His finished elocution, his wonderful power over the expression of his face and his imitative powers we never saw equalled.

IN THE BOARD OF COUNCILLORS, last evening, an ordinance providing for the payment of a salary of $2,500 to the Judge of the Municipal Court, and $1,500 to the Clerk, was passed. Also an ordinance to provide for suitable school buildings in the 5th, 8th and 9th Wards.

CORRECTION.—*Mr. Editor:*—In your paper of to-day, under the head of "Religious Notices," you stated that the weight of the Bell, which I presented to the Methodist Society, at Brodhead, was 395 pounds. The weight is 705 pounds.

EDWARD H. BRODHEAD.
Milwaukee, Aug. 6th, 1859.

CEMETERY NOTICE.—All persons interested in the Milwaukee Cemetery Association are requested to meet at the rooms of the Board of Trade on Saturday next, August 13th, at 7 1-2 P. M.

By Order of the Board of Corporators.

☞City papers please copy; without charge.

STILL AHEAD.—Messrs. BAMFORD and BALDWIN, News Agents, laid upon our table yesterday, at 2 P. M., the New York *Herald* of August 6th. Messrs. BAMFORD and BALDWIN get their papers by the way of the Michigan Central and Lake Shore Rail Roads.

☞ SUBSCRIBE FOR AND ADVERTISE in the *Manitowoc Tribune*, Daily and Weekly. The *Tribune* is the largest weekly, and the *only* daily paper north of Milwaukee. Terms, cash in advance. SMITH & STONE, Publishers dtf

A CARD.—We feel called upon to acknowledge the promptness and liberality with which Mr. G. D. DOUSMAN, Agent of the American Transportation Co., paid us the damages sustained by the loss of a large cask of Rhenish Wine, destroyed by the carlessness of a drayman. This action recommends itself to the public; nevertheless, we cannot but publicly recommend said Company and their liberal Agent, G. D. DOUSMAN, Esq., to all who may be in want of transportation services. GRASSMAN & ORTH,
Milwaukee, Aug. 9, '59. Importers.

HOUSES TO RENT.—J. S. FILLMORE has a two story frame house on Cass street, between Ogden and Lyon. Rent $12 50 per month. Also a good frame house on Milwaukee street, near the Post Office. Rent $12 50 per month.

SAMUEL I. BRIDGE,
Real Estate, Money & Insurance Broker.

I OFFER my services for the negotiation of Notes' Mortgages, Stocks, Bonds, and other securities, and for the *obtaining of Loans*. Also, for the purchase and sale of REAL ESTATE. Taxes paid. Abstracts of titles furnished. Collections made in all parts of the country.

Marine and Fire Insurance Effected,
In the best Companies, at the lowest rates.

SAML. I. BRIDGE,
Office of Merchants' & Traders' Ins. Co., Michigan street, under Newhall House. mo10|266dtf1stpp

Western Union and Wisconsin State Telegraph
Office—Free Democrat Block, Milwaukee.

CONNECTIONS with all lines East. The Wisconsin State Lines run from Milwaukee to La Crosse, Fond du Lac and Waupun, on railroad routes. Also, from Milwaukee to Janesville, Madison, Watertown and Prairie du Chien. Stations at all important intermediate points.

☞ Office hours from 8 A. M. to 8 P. M.
my14|285dtf1stpp A. WELLER, Agent.

PILES IN BOTH FORMS CURED—READ THIS.—"I can only recount for my present sound health from the constant, though moderate use of HOSTETTER'S HOLLAND BITTERS—having from my youth suffered, at intervals, from *Piles*, in both forms, sometimes so severe as to completely prostrate me. I have for several months past, though subject to loss of sleep, and unusual physical effort, been entirely free from any symptom of this distressing disease; while my general health is very much improved."

Persons doubting the authenticity of this certificate, are requested to call upon or communicate with the proprietors. They will take pleasure not only in referring them to its author, but to many others who have used the Holland Bitters for the same affection, with equal success.

CAUTION!—Beware of imposition See that the name of Benjamin Page, Jr. & Co., sole proprietors Pittsburgh, Pa., is on the label of every bottle.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

LATER FROM EUROPE.

ARRIVAL OF STEAMSHIP NOVA SCOTIAN.

FARTHER POINT, Aug. 6th.

The steamship Nova Scotian from Liverpool on 27th ult. has passed this point, bound for Quebec. Her advices, which are four days later, have been obtained.

The general news is unimportant. England demands the general disarming of the recent belligerent powers, as a condition for taking part in the European Congress.

It is reported that Count Walewski has submitted a plan for the confederation of Italy. It comprises seven States, and the presidency is nominally given to the Pope, but in reality to the Kings of Sardinia and Naples alternately. The strong places to be garrisoned by the Federal troops, are Gaeta, Mantua and Piacenza. The votes in Federal Diet according to the proposition, are to be divided as follows: Parma 1; Modena 1; the Pope 2; Tuscany 2; Sardinia 3; and Naples 3.

GREAT BRITAIN.—In the House of Lords, Lord Lindhurst defended himself from the charges of Mr. Bright, on account of the war. He asked if the Admiralty were arming the French fleets with rifled cannon.

The Duke of Somerset replied in the affirmative, and said that although England had an improved cannon in progress of manufacture, it could not be ready for some time.

In the House of Commons, Sir De Lacy Evans moved for the appointment of commissioners to inquire into the National defences, and report what improvements were possible. It is understood that the government has assented to the substance of the resolution.—The government, however, would not assent to the motion, but were willing to the appointment of a committee to inquire what permanent fortifications were necessary for the defence of the dock-yards and arsenals.—Sir De Lacy Evans' resolution was negatived.

THE PEACE CONFERENCE.—Nothing of moment has transpired in regard to the Conference at Zurich—nor is it known whether Sardinia would take a part. A dispatch of the 25th from Rome, however, says that the representatives of the three powers were expected to meet at the end of July.

It was vaguely rumored in Paris on the 25th, that Napoleon would soon visit London.

The London Daily News believes that although the scheme of an Italian Confederation may not have been formally struck off from its programme, it is not now insisted on by its author, and that but little more will be heard of it.

The French fleet has sailed from Liz

THE SENTINEL.

DAILY, TRI-WEEKLY & WEEKLY.

RUFUS KING, EDITOR.

TUESDAY MORNING, AUGUST 9, 1859.

Republican State Convention.

A Republican State Convention will be held at the City of Madison, in the Assembly Hall of the Capitol on Wednesday, the 31st day of August next, at 12 o'clock M., for the purpose of nominating candidates for State officers to be supported by the party at the ensuing general election; and to transact any other business that may properly come before it.

As the subject of selecting delegates to the next National Convention may be entertained and acted on by the Convention, it is suggested that the people in their primary caucuses, and the district conventions make such expression as will intimate to their delegates and the State Convention, the general sentiment of the State on that subject.

Each Assembly District will be entitled to two delegates in the Convention.

It is recommended that District Conventions for the selection of delegates be held throughout the State, on or before the 25th day of August, and that committees make early calls for that purpose: and it is especially urged that every district be duly represented in the Convention.

Our Next State Fair.

It is not too much to expect that our next Annual State Fair, which is to be held in this city, during the last week of the coming month, will be the finest industrial exhibition that we have ever yet had in Wisconsin, —at least we hope it may be such, and are confident that our citizens will spare no efforts to insure its success. The State Agricultural Society have issued their Premium List and programme of the Fair in pamphlet form, which will be forwarded to any one soliciting it, by addressing the Secretary, D. J. Powers, Madison. The arrangements of the Society are very complete, special pains having been taken to correct whatever has hitherto been faulty or inconvenient; and in addition to the usual exhibition, the following attractions are added:

A Plowing match on the second day to take place near the Fair Grounds; the Ladies Equestrian display to come off on the afternoon of the same day; the trials of speed announced for the following day; a grand regatta on the river, which it is expected will be participated in by a number of contestants from abroad; the Firemen's Tournament, and a Military parade. In which, no doubt, all of our citizen soldiery will take part. Our extensive railway communication with nearly all portions of the State, and the ample hotel accommodation which our city affords, taken in connection with the numerous attractions offered, will, no doubt, insure the attendance of a vast concourse of people at the Fair. It occurs at a time when the bulk of the work appertaining to the bountiful crops our farmers are now harvesting will be over, and we hope to see them flocking to the fair in regiments, accompanied by their wives, daughters and sons, who are well deserving of a respite from their labors for the part they have taken in the toils of the season. It will inspire them with new zeal to enter upon their duties when they return home, and besides this, it will give them a more correct impression of the enterprise, wealth, and genius of the State than they could well otherwise obtain.

What a cotemporary of an adjoining State says on this point is equally applicable to our own State:—"This commingling of the people of the north and south, and east and west and centre of the State, at their annual State Fair, is not only useful in removing prejudices and cementing friendships, but it is in every point of view a grand and beautiful sight. A just pride in the progress and advancement of the State, as well as the consideration of health and invigorated spirits, should be incentive sufficient to swell the attendance to thousands and thousands."

We observe that the Rail Road Companies of Illinois have agreed to carry persons to and from the Fair, at Freeport, at half cost, and we presume the Railroads in this State will be equally liberal. The Society will make arrangements for the transportation of animals and articles on the most reasonable terms. Persons desiring any further information in regard to the Fair, can be enlightened by addressing D. J. Powers, Secretary of the State Agricultural Society, at Madison.

The Italian Confederation.

"This confederation," says the Albany *Journal*, "which sprang into such sudden existence at Villafranca, seems to remain in a state of chaos. The component parts have about as much affinity for each other as oil and water, and refuse to join at the bidding of the two Emperors.

The Tuscans openly repudiate and defy the arrangement. The Piedmontese do not refuse to submit to it, but take no active steps to carry it out. The People of Modena remonstrate, though they are too weak to resist. The King of Naples has not signified his intention to accept the place assigned him, nor the Pope agreed to assume the Presidency with which he is honored. No State in Italy, except the Emperor of Austria's province of Venetia, seems to be ready for the change. It is morally certain that the acceptance of the King of Naples and the Pope will further increase the reluctance of Piedmont and Tuscany, while, on the other hand, the adhesion of Piedmont and Tuscany would arouse suspicion and distrust on the part of the former powers. If the 'Confederation' is to be confederated, it will have to be done by the intervention of foreign arms; nor would it be certain to hang together a day after the French and Austrian Troops were withdrawn.

The new Conference at Zurich will have to settle this perplexing difficulty. It is not improbable that they may find it necessary to reconstruct the whole affair, as well as to settle how many Austrians and Frenchmen it will take to keep an Italian Confederation in working order."

Kentucky Election.—The latest returns from the Ninth Congressional District of Kentucky, elect Laban T. Moore, the Opposition candidate, by about 250 majority. This result is conceded by the Democrats.—It increases the number of Opposition members to *four*—two more than in the last Congress.

The very remarkable gain in Harrison county, for Capt. Simms, reported to be elected over Harlan, in the Ashland District, by from 20 to 50 majority, leaves little doubt of fraud in that quarter. Should Simms receive the certificate, a contest is probable.

A comparison of the vote for Governor in 52 counties (half the State) with the result in 1855, (when Morehead, American, had a majority 4,403 votes) shows an Opposition loss of only 1,403. Unless these returns (part of which are official) are very erroneous, Maggoffin's majority must be small, without much larger relative gains in the remaining counties.

"Free Italy."—Punch has a caricature with this title, in which Napoleon is represented as thrusting into the left hand of Italy a liberty pole and cap, while the right hand is chained to rock labelled "Venetia," on which Francis Joseph has his foot.—Then with a diabolical grin on his face, the French Emperor is crowning Italy with the triple Tiara of the Pope, which is so large that it comes down over her eyes and mouth, blinding and suffocating her.

A new thing in Paris, is a bonnet made of fine black hair, embroidered with buttercups, of silken straw. The ribbon for the trimmings, has a black-ground, and the flowers at the side are entirely black, with jet centers. The effect of this combination is considered as very original, and it has the advantage of defying dust.

THE WISCONSIN STATE PRISON.

[CONCLUDED.]

From our own Correspondent.

State Prison, August 1st, 1859.

Dear Sentinel:—The State Prison ground consists of twenty acres, twelve of which lie outside the wall, and constitute the Prison farm. The convicts employed in cultivating the same, are those who, having but a short time to remain, would not be likely to attempt an escape, with a chance of a thousand to one against their succeeding, and the certainty of being imprisoned ten years longer if they do not succeed. Nevertheless, they are attended by armed guards.

The rest of the land, eight acres, is to be enclosed by the wall now being built, and is the Prison *yard*. It contains the old and new buildings, and the work-shops of different kinds. The latter are very shabby affairs, and were intended only for temporary use. Until convenient shops and factories are established, so that a plan of mechanical operations can be systamized, the Prison will not pay its expenses. This cannot well be accomplished while the available building force among the convicts is at work on the wall, nor till they shall have built the north wing of the Prison, which seems to be the next most important thing. Therefore it does no good for the Legislature to growl whenever the State Prison business comes before them, and declare it to be a burden to the State, while the Prisons of other States pay expenses, with the fact before them that no such institution has supported itself until it was completed, and suitable buildings and machinery constructed, for various manufactures.

Moreover, *paying* Prisons are not so numerous as people suppose. The Sing Sing Prison has not paid its expenses for many years. The Clinton County Prison, also in New York State, *never* did. The Auburn Prison pays some years and some it does not. The Ohio Prison failed to do so last year in the sum of $3,100, which was better than it ever did before. The Michigan Prison has been in operation twenty years, yet year before last the Legislature had to appropriate $25,000 for it. The New Jersey Prison supports itself; as also, I believe, do those in Pennsylvania and Massachusetts.

There are at least three systems of managing Prisons, practiced in the different States. 1st. The State finds stock, machinery, and overseers and sells its wares in the market, as do other manufactories. 2d. The State lets out, for a term of years, the services of the convicts, but retains the government over them, boarding and clothing them, and furnishing shops and keepers: the contractor, however, keeps overseers in the shops, to superintend the work. 3d. The Prison, workshops, convicts and all, are leased to the highest bidder, who takes upon himself their government also, and all the duties of the State. Each of the above methods has paid expenses in some States, I think, and failed to do so in others.

So far as there have yet been opportunity and facilities for manufacturing in this Prison, it has been conducted on the first named system. The last named, by which the entire control of the prisoners is given up to a contractor must be the worst, as he is not likely to have any *moral* aim in view, in his treatment of them. It has been found he will gratify their appetites and tastes, whether good or bad, to get more work out of them, thereby destroying all Prison discipline.

Governor Randall, in his last message to the Legislature, pointed out the impolicy of making appropriations on our public works by *piece-meal*, showing that it gives a wider scope for plunder. If the present honest management of the Prison is to exist two years longer, the public may well pray that the sum necessary to complete this institution, and bring it to a self supporting condition, will be appropriated by the next Legislature, otherwise it will be an item of expense in every tax-payer's bill for years to come.

There is due our State from the General Government, the sum of $2,270 or over, for keeping U. S. convicts. This bill has been presented by Mr. MacGraw, but Judge Miller counselled the government not to pay it, on the ground that the convicts being sentenced to hard labor, ought to pay their keeping: and moreover that such claims on the U. S. should be presented every six months, whereas this had run on for a longer time.

As our *State* convicts can not yet be made to pay their way, how does he expect U. S. prisoners to do it? The *last* named plan, be it valid or not, is too plainly unjust, and would not deter the U. S. from paying what it owes the State, if our Legislature would take firm ground, and refuse to keep the convicts without pay. *Other* States *get paid* for keeping U. S. prisoners. Thus the sum of $2,270, which would nearly have balanced the books of the Prison last year, is withheld, by the great American Republic, which being already one hundred million dollars in debt, more or less, from the recklessness of the present Administration, begins retrenchment with *this* case! Its faithful servant, who put the government on its guard, should have his patriotism memorized by his name being graven on one of the pantheon columns of the Washington Monument—when it is finished.

There is to be held in Philadelphia, on the 7th of next month, a Convention of Prison Officers from the various States, and others interested in the reformation of convicts and the establishment of a system of labor by which they shall pay their keeping. Mr. MacGraw in his Report last Winter, says, of this Convention:

At present, every State appears to have a theory or system, in some measure, of its own, without profiting by those of its neighbors. As every trade, occupation and profession, are forming associations for mutual improvement, it appears necessary that this very important calling should not be behind others. If such a convention be held, as I think it will, I would hint the propriety of a small appropriation to defray expenses in attending it. I purpose to be present at any rate, and leave it with the Legislature to determine whether it will be of sufficient public importance to pay my expenses.

I should not have written to such length on the State Prison, had I not known by conversing with people met with in my travels over the State, that considerable interest is felt in it, by farmers and others, into whose hands the Commissioner's Report seldom finds its way; and if it does, it is not designed to treat the matter entertainingly, by giving such descriptions, &c., as they would like.

There are passages, however, in the Annual Report of the present State Prison Commissioner, that are certainly rarely excelled for philosophy and philanthropy. I herewith send to the *Sentinel* a few of the many such extracts that may be made from it, and they will be inserted when there is room for them, so those who did not have the Report, may read some of its most excellent parts.

Indeed, many members of our last Legislature, who showed by their ignorance on the subjects therein treated of, whenever they came up for discussion, that they had not given the Report the attention it demanded of them, may yet profit by a perusal of the above-mentioned extracts.

NYM CRINKLE.

Lord Derby's Opinion of the Peace.—At a dinner given in London on the 16th ult, by the conservative party to their two Parliamentary leaders, the Earl of Derby and Hon. B. D'Israeli, the former employed the following language:—

"War has for the moment terminated, and every friend of humanity must rejoice in the cessation of the effusion of those torrents of human blood which have been poured forth so professedly and so recklessly at Magenta, at Solferino, and other fields in Italy. It is too early to speak to you of the exact conditions of this truce or peace. But I confess to you that, from the information we at present possess, I look to the state of affairs arising out of the peace as more critical and dangerous than anything which existed before."

"That's the *rock* on which we split," said Charley to his wife when she asked him to rock the cradle.

The Condition of Italy.

The well-informed London correspondent of the New York *Tribune* writes under date of July 22nd:

Though the war has ceased and the preliminaries of peace are signed, the troubles of Italy are only beginning, and no one sees how it will be possible to carry the peace into execution. Since the Venetian province remains under the Austrians, I rather rejoice that all the four fortresses—the Keys of Lombardy—were also left in their possession. They are a standing menace against Victor Emanuel, who knows too well that he cannot always reckon on French assistance, and therefore must continue to find his support against Austria in the extension of liberal institutions, and in keeping alive the desire of Italian unity throughout the peninsula. Here, then, we have a ferment which will keep up agitation, and prevent the Italians from falling once more into that political torpidity which characterized the nation for many years previous to 1848. As to the Duchies of Modena and Tuscany, Napoleon has already positively stated that he will not allow the expelled Dukes to be installed by foreign soldiers. They may try to get back by fair means, but if their former subjects should openly and clearly show their abhorrence of their rule, he will not compel them to accept princes whom they detest, provided they remain passable and do not resort to revolutionary measures. All this sounds very mysterious, and I must confess that I do not believe this *idee Napoleonne*, unless it means that the Emperor of Austria, too, is to be cheated, and that one of the articles of the peace is to remain a dead letter.

As regards the other—I mean the confederation of Italy with the honorary Presidency of the Pope, it is so monstrous that it not be carried out. The King of Sardinia has already, to a certain extent, put a stop to it, by intrusting Ratazzi, who is actually under the excommunication of the Pope, with the formation of a Cabinet. You will probably remember that Ratazzi was more liberal than Count Cavour, and that he had to resign as Minister on account of the bitter hatred entertained against him by the clerical party. Now he is again the soul of the Ministry of Victor Emanuel. How could Cardinal Antonelli embark with him in the same boat of Italian Confederation without capsizing it? Still greater are the difficulties in the Papal States. The Legations have established themselves independently of the Pope. The Roman volunteers from the army of the Allies are flocking to Bologna; and the Swiss of the Pope, under Generals Kalbermatter and Schmidt, can even after the butchery of Perugia, scarcely hold the March of Ancona in decent submission to the Roman Government. The French have not yet been pursuaded by Pio. IX. to restore his secular power by force of arms, while the Austrians are forbidden to cross the Po.—What is Antonelli to do now? At Naples we saw a muthny of the Swiss mercenaries soon followed by a general order of Prince Satriano, which disorganized these troops by allowing each soldier to redeem himself from two thousand have availed themselves of this permission. Thus even Naples gets rid of the mercenaries by whose sword the despotism of the late King was supported.—The country must now either be governed in a more liberal way, or it will be ravaged by revolution. All this complication is a result of the peace of Villafranca.

As to Napoleon, he has shown less cunning than he had credit for. Only last month he was the master of Europe. It was in his power to become the greatest man of his age, when all at once he throws away all his chances, makes a peace which settles nothing, but which exasperates Italy, arouses the suspicions of England, threatens Germany, humiliates Austria, fails either to conciliate any of the nations of Europe, to satisfy the ambition of his army, or to reassure the moneyed classes. For the first time in his life he appears before the public with an elaborate apology for his shortcomings, but his performance is missed—it does not convince anybody. The Orleanists and Republicans are chuckling at his false step, many an Italian whets his dagger, and the Germans seeing that their union in the Frankfort Federation has no leg to stand upon, instead of trying to reform their miserable position, unanimously execrate Napoleon. What then could have been his motives for the peace of Villafranca, which he must have known could not please either friend or foe? It is said by his adherents that he foresaw an armed mediation of Prussia, England and Russia, stepping in and dictating a peace. Now rather than permit the traditions of 1815 to triumph again, and rather than that the European penarchy should once more decide the fate of the nations and alter the map of Europe by common accord, he is said to have given more favorable terms to Austria, in order to keep out the other Powers, and to make a new breach in the treaties of 1815. I need not say that this excuse is even weaker than his own, when he throws the blame on the armaments of Prussia and on the necessity in such a case of allying himself with revolution. The Emperor of Austria also throws the blame on Prussia, complaining that he has been abandoned by his natural allies—thereby reversing the words of Napoleon.

The New York Democracy.—More Harmony of the Canal Sort.

The Democratic State Central Committee of New York, met at Albany on Tuesday, to take action with reference to a State Convention. A sharp contest has been going on, for some weeks, between the Hards and the Softs in regard to the choice of Delegates to the Charleston Convention. The State organization is in the hands of the Softs, with Peter Cagger, a valiant Van Burenite in 1848, at its head. Fernando Wood and other prominent Hards have been actively bestirring themselves to prevent a supposed intention, on the part of the Central Committee, to have the entire Charleston delegation chosen by the coming State Convention, and packed with Anti-Administration men. Wood, while conquetting with the Dickinson interest, is supposed to be ready in favor of the nomination of Wise, and to be merely seeking an excuse for a duplicate delegation who will support the great epistolator. It is demanded by Wood, therefore, and with a show of fairness, that the delegates be appointed by the several districts which they are ostensibly to represent. A vast amount of letter writing and newspaper wrangling has grown out of the controversy, and the meeting of the Central Committee has been looked forward to with much curiosity, as on its action Democratic "harmony" in the approaching election in New York, will very much depend.

There was a general attendance of members of the Committee, on Tuesday, and a large outside representation of both the belligerent factions. Without any definite action, the Committee adjourned over until yesterday, giving time for diplomatic manœuvering. Wood, as the head of what is called the Astor House Committee, submitted for the consideration of the regular body a "pacific and conciliatory" address, urging that action be confined exclusively to the nomination of a State ticket, and the construction of a platform of policy, leaving the vexed question of representation at Charleston until after the October election. It was confidently expected by the Hards, up to yesterday, that a compromise would be effected, by which the whole question would at least be left, without prejudice, to the determination of the Convention when assembled.

It will be seen from our special despatches that Wood's proposal was acted on yesterday by the Committee, and promptly, if not contemptuously, rejected! The Hards were naturally in a great rage at this, and their wrath was not at all mitigated by a subsequent resolution of the Committee to call the Convention *in the usual way*, virtually requiring it to choose the Charleston delegates. This is precisely what Wood has been so industriously laboring to prevent. He is utterly foiled. A split is now inevitable.

Mons. Blondin's Last Feat at Niagara.

The Falls were gay yesterday with the crowds of pleasure seekers and the bustle of sight seeing. The hotels have been crowded to overflowing for several days, both the International and the Cataract having been compelled to turn away scores of people.—The Clifton, over the river gets its full share of patronage.

Blondin was dressed in an Indian dress, with a crown covered with plumes. He nimbly crossed to the Canada side, and after a few minutes rest, started back. In returning he surpassed all his former exhibitions. Such daring, strength, coolness and dexterity were never before witnessed. He turned somersaults, hung by his hands, by one hand, by one leg, and lay upon the cable, all with the utmost sang froid, while the multitude on either shore was awe struck at his boldness. Many covered their faces, unable to look at him suspended below the rope, at right angles to it, with his arm twisted behind him in a manner that seemed impossible to sustain him. He performed a variety of other daring feats. During all this time his balancing pole was tied to the guys, and his own steadiness of nerve was his sole support in the extremely dangerous exhibition.

In a short time, Blondin will cross again, and says that he will astonish the world by some of his feats in the centre of the cable over the river gorges. Quite as great a crowd as any that have witnessed his former passages, were present yesterday, and the enthusiasm was immense. Blondin was constantly cheered during the crossing. The little Frenchman is quite a lion, and deservedly too, at the Falls.—*Buffalo Commercial Advertiser, Aug. 4th.*

A truly grateful heart may not be able to tell its gratitude, but it can feel, and love, and act.

It may sound like a paradox, yet the breaking of both an army's wings is a pretty sure way to make it fly.

The New Pier of the D. & M. Railway.

The mouth of our beautiful river presents quite a busy scene, contrasting markedly with its usual quiet aspect. The Indian wigwams with their lazy denizens have disappeared, and in place thereof have been erected several large boarding houses, with kitchens, carpenters' and blacksmiths' shops, and a lodging house opposite capable of accommodating from sixty to seventy men.—Immediately opposite is the nucleus of the new pier, now being erected by F. C. Ridley, Esq., for the D. & M. Railway.

The pier, when completed, will be 2,000 feet long, requiring some 3,000 piles, and 3,000 cords of stone, with an immense quantity of brush. The piles are of the best white oak and are laid six feet apart at the commencement, and three feet apart where the water becomes deeper; those are driven in some ten or twelve feet into the sand, at the rate of forty-five piles a day, three machines being now in operation. The space between the piles is filled up with alternate layers of brush, poles and stone until it reaches one foot above the level of the water; the poles are laid lengthwise.

The first eight hundred feet of the pier will be fifteen feet wide, and the remainder twenty-four feet wide, terminating in a square of fifty feet, upon which a light-house forty feet high will be placed. The stone for filling up is brought from Grand Rapids on the Railroad to the Grand Haven Depot, the docks are then placed on scows and towed up to the works, so that there is only one loading and unloading, an arrangement which saves a vast amount of labor and expense. There were three cars unloading at the time of our visit. This, owing to various contrivances, was done with the greatest despatch.

Sixty men are employed on this pier, two hundred and fifty feet of which is finished; and should the weather continue favorable, the whole will be completed this Fall. When done, we shall have a deep channel, easy to find and accessible at all seasons of the year, thus rendering our harbor one of the best on the great Lake Coast. The generous enterprise of the Detroit and Milwaukee Railway Co., as displayed in this great undertaking, deserves the highest commendation.

It would only be an act of justice that the United States Government should build a pier on the opposite side, so as to complete the channel.—*Grand Haven Clarion.*

Sunday Reform in St. Louis.—The triumphant vote by which the people of St. Louis, on Monday last, declared their opposition to the sale of intoxicating liquors on Sunday, is a matter of sincere congratulation with all our best citizens. It was not a party vote—it had nothing to do with party—but was the free declaration of men of all parties and nationalities against the excesses which have been superinduced by a special law of the legislature, passed two years ago, in effect giving unlimited license, in the absence of a proper police, to these houses being kept open on Sunday.

What will the City Council now do? Or, rather, is it necessary for that body to do anything? At the session of the legislature in 1857, a law was passed to accommodate two German Representatives from this county with a hobby—in the House as much in jest as in earnest—submitting this question to a vote of the people. That vote was ordered and had, but it was such a "*pooh pooh, coated* pill that nobody paid attention to it, and the question was carried by the friends of the measure without serious opposition.

Since then, not only have the beer gardens in the suburbs, to which men retire as a place of pleasure and relaxation on Sunday, but all the beer saloons and dance houses, and five or six theatres, are opened on Sunday and Sunday night, on every prominent street in the city. This is the evil mainly complained of by our citizens. But after the vote of the people was taken, we cannot learn that any ordinance was passed to give effect to it, and it is only two or three weeks since we saw an ordinance introduced into the city Council, intended, as we suppose, to remedy this defect.

It was not perfected. If that was the object, and no previous ordinance had been passed—about which we are not quite sure—this law, it would seem, is inoperative under this second vote, and the general law of the State must be appealed to regulate and license these houses. The law operates all over the State, and there is no good reason why special legislation should take St. Louis out of its control. At all events, the vote on Monday will let us into the secret, how far the constituted authorities are ready and willing to comply with the demands of the people.—*St. Louis Republican.*

The Bible the Key to the Heart.—If I had a lock of very complicated construction, and there was only one key that would unlock it, I should feel very sure that key was made by one who understood the construction of that lock. So when I find that, notwithstanding all the windings and mysteries of iniquity in the human heart, the Bible, and the Bible only, is adapted to its most secret recesses, I am constrained to believe that the Bible was made by him who alone knoweth the hearts of the children of men."—*Webster.*

PRINCE IMPERIAL

CHAMPAGNE,

FROM

De Venoge & Co., Epernay, France.

THIS IS A PERFECTLY PURE AND delicate Wine, from the vineyard of Messrs. De Venoge & Co., whose estates lie in the *centre of the finest and choicest vine district of France.* It has hitherto been confined to the best tables of England and the Continent, and has only very recently been introduced into this country, where its rare quality, combined with its moderate price and limited supply is offered, is already achieving a success and popularity unprecedented in the annals of the Wine Trade.

Sold in this city, by ——— and at the principal Hotels, and by all the leading Cafes throughout the country.

E. V. HAUGHWOUT, Sole Importer,
Je20dSt4dsu-24p Cor. Broadway & Broome Sts.

THE UNDERSIGNED BEGS LEAVE to inform his friends and the public in general, that

Messrs. FREUND & GROSSINGER,

Of New York, have appointed him SOLE AGENT for the sale of their

HUNGARIAN WINES.

The superiority of these wines over all others, as well as the purity of the same, will be seen by reference to the annexed certificate of C. Rauch, Esq., M. D., &c., &c. Messrs. Freund & Grossinger will keep me constantly supplied with a well-assorted stock, which will enable me to furnish my respective customers with a superior article at New York prices.

L. W. A. JACOBI,
Murray's Block, Market Square.
Milwaukee, June 16th, 1859.

THE PURE WINES OF HUNGARY.

State Assayer's Office, 25 Somerset St., Boston, July 1st, 1859.

Messrs. Freund & Grossinger,—

Gentlemen:—I received from you eight samples of Red and White Hungarian Wines, which, at your request, I have submitted to chemical analysis. I send you the details with this letter.

From my researches it appears that these Wines are pure, and they contain nothing but the products of the grape. I can confidently recommend them to the public as sound and pure wine, and as not so likely to become sour as the light wines of France.

I express my samples every week hours for the air, in a wire cloth, during my journey from place to place.

The general character of the red Hungarian Wines is that of the Red Burgundy of France, and the White Wines (with the exception of the sweet dessert wine) are believed to be Sauternes, but somewhat stronger than either of these.

I am satisfied that, when known to the public, the Hungarian Wines will be strong in favor, and that they will be much sought for.

Respectfully, your obedient servant,
CHARLES T. JACKSON, M. D.,
Je22dlsdlm State Assayer.

It prevents the Hair from falling off.
It promotes its healthy and vigorous growth.
It is not greasy or sticky.
It leaves no disagreeable odor.
It softens the hair when hard and dry.
It soothes the irritated scalp skin.
It affords the richest taste.
It remains longest in effect.
It costs 50 cents for a half pint bottle.

Burnett's Cocoaine.
Burnett's Cocoaine.
Burnett's Cocoaine.

TESTIMONIAL.

BOSTON, July 19, 1857.

MESSRS. J. BURNETT & CO.—I cannot refuse to state the salutary effect in my own aggravated case, of your excellent Hair Oil—(Cocoaine.)

For many months my hair has been falling off, until I was fearful of losing it entirely. The skin upon my head became gradually more and more inflamed, so that I could not touch it without pain. This irritated condition I attributed to the use of various advertised hair washes, which I have since been told contain camphene spirit.

By the advice of my physician, to whom you had shown your process of purifying the Oil, I commenced its use the last week in June. The first application allayed the itching and irritation, in three or four days the redness and tenderness disappeared—the hair ceased to fall, and I have now a thick growth of new hair. I trust that others, similarly afflicted, will be induced to try the same remedy.

Yours, very truly,
SUSAN R. POPE.

Burnett's Cocoaine.
Burnett's Cocoaine.
Burnett's Cocoaine.

A single application renders the hair, (no matter how stiff and dry,) soft and glossy for several days. It is conceded by all who have used it to be *the best and cheapest Hair Dressing in the World.*

Prepared by JOSEPH BURNETT & CO., Boston.

For sale by dealers generally, at 50 cents a bottle.

A CARD TO THE "LADIES."

Dr. Duponco's Golden Periodical Pills

FOR FEMALES.

THE COMBINATION OF INGREDIENTS in Dr. Duponco's Golden Pills are perfectly harmless. They have been used in the private practice of old Dr. Duponco for over thirty years, and thousands of ladies can testify to their great and never failing success in almost every case, in correcting irregularities, relieving painful and distressing menstruation, particularly at the change of life. From first to ten pills will cure that common yet dreadful complaint, the Whites. Nearly every lady in the land suffers from that complaint. The above pills has permanently cured thousands, and will cure you if you use them. They cannot harm you, on the contrary, they remove all obstructions, restore nature to its proper channel, and invigorate the whole system. Ladies whose health will not permit an increase of family, will find these pills a successful preventative. Pregnant Females, or those supposing themselves so, are cautioned against using these pills while pregnant, as the proprietor assumes no responsibility after the above admonition although their mildness would prevent any mischief to the health—otherwise, these pills are recommended. Full and explicit directions accompany each box. Price $1,00 per box. H. BOSWORTH & SONS,

Wholesale Agents for Milwaukee

They will supply the trade at Proprietor's prices, and furnish circulars, and show cards. Sold also by H. Fess, jr., 193 East Water st., J. M. Alcott 208, J. F. Tesch, 9 Spring St., and C. H. Gardiner & Co., 15 Spring St. "Ladies" by enclosing $1,00 to H. Bosworth & Sons, or either of the above Agents, can have the above Golden Pills sent to any part of the country (confidentially) by mail.

N. B.—Be particular in asking for Dr. Duponco's Golden Pills, and remember, they are not a secret nostrum, every agent is given the receipt composing the Pills, and they will tell you they are the best and safest Pill for Females, ever introduced since the science of Medicine dawned upon the world.

ENCELADUS.

BY H. W. LONGFELLOW.

Under Mount Etna he lies,
It is slumber, it is not death;
For he struggles at times to arise,
And above him the lurid skies
Are hot with his fiery breath.

The crags are piled on his breast,
The earth is heaped on his head;
But the groans of his wild unrest,
Though smothered and half suppressed,
Are heard, and he is not dead.

And the nations far away
Are watching with eager eyes;
They talk together and say,
"To-morrow, perhaps to-day,
Enceladus will arise!"

And the old gods, the austere
Oppressors in their strength,
Stand aghast and white with fear,
At the ominous sounds they hear,
And tremble, and mutter, "At length!"

Ah, me! for the land that is sown
With the harvest of despair!
Where the burning cities, blown
From the lips of the overthrown
Enceladus, fill the air.

Where ashes are heaped in drifts
Over vineyard and field and town,
Whenever he starts and lifts
His head through the blackened rifts
Of the crags that keep him down.

See, see! the red light shines!
'Tis the glare of his awful eyes!
And the storm-wind shouts through the pines
Of Alps and of Apennines,
"Enceladus, arise!"

Ride on a Steam Plow.

Professor ALFRED KENNEDY writes for the *Country Gentleman* a description of his ride on the steam plow, recently invented by Mr. FAWKES. He says:

The extensive grounds of the Oxford Park Association had been thrown open to the Committe, and a decision was to be made on the merits of an invention of John W. Fawkes a Lancaster Co. mechanic, who, after three years of almost despairing struggle and hard privation, spent in the embodiment of his grand idea, is now submitting the product of his genius to the highest tribunals of his native State and her metropolis. As he stood in the garb of a workman, trying his gauge, or in a sharp quick tone, which told of mingled confidence and anxiety, giving orders to the foreman, his rough attire, soiled in such a cause, appeared more honorable than imperial purple. By his permission I stepped upon the engine, and stood by his side, as the shrill whistle gave the signal to start—One movement of the lever, and onward we went up an ascent of about seven degrees, and with a smooth uniform motion. As the eight shares entered the soil, I apprehended a sudden check and strain, like that felt when a railroad train is partially "braked up," but nothing of the kind was experienced.

In the enormous driving wheel, or drum beneath my feet I could not detect the sliding on the sod. *The traction was perfect.* Before us the beautiful green turf swept under the bow of our gallant craft. Behind us lay a deep brown wake in which scarce a thing of green was to be seen. Under the stern the eight broad waves of sod lifted their crest and rolled over like surges falling upon the beach. "Steady she goes," as our helmsman, with hand upon the tiller, and eye upon the guide wheel, keeps on his straight course. But we near the edge of the field.—Two shrieks of the whistle, and up rise the plows. Starboard your helm! Round sweeps our craft, and gracefully as a bird on the wing, we come again into line. Another whistle, and the plows are lowered, and in less time than is required to follow this sentence, she is off. A flush of triumphant pleasure mantles the face of the inventor.—The grade slightly descends. The crowd which has toiled after us up the ascent, quicken their pace. Still we are leaving them. Now only the foremost then the whole party break into a run, and shouts like those which followed the triumphal car of the Roman conqueror rend the air.

Many were the warm grasps of congratulation which greeted the American conqueror as he stepped from his car of triumph, and in modest terms proposed to subject his machine to any test which the committee might suggest. "Can you cross plow the land which you have just turned over?" "Yes sir," was his prompt reply, and wheeling his machine into position, he crossed at right angles the furrows previously thrown up.—Subsequently gullieys were passed over, abrupt elevations surrounded, and finally the plows were detached, and an omnibus hitched to the engine. "Here we are now right off," cried a facetious passenger, and right off we were going over the trotting course at a good round pace. Feelings of intense gratification seemed to animate the entire assembly, and I left the grounds with feelings of thankfulness to that great and good Being who in our day had enabled a fellow-countryman to make the giant steam tributary to the art of cultivation, and the means of untold blessings to millions.

THE JEWS IN AMERICA.—From the report of a lecture recently delivered by Dr. Morris J. Franklin, in Providence, R. I., we gather some facts in relation to the Jews in the United States. The Jews in this country, the speaker said, now number about two hundred thousand. In New York city alone there are forty thousand. The attention of the Jews in Europe is turned towards America, on account of the persecution to which they are subjected in some countries on the continent, and a rapid increase of their numbers here may be expected by immigration.—Many Jews in this country are occupying prominent and influential positions in politics and business. Messrs. Yulee and Benjamin, of U. S. Senate, and Messrs. Zollicoffer, Oliver, Phillips and Hart, of the National House of Representatives, are numbered among the children of Abraham. Instead of reading the Scriptures in the Hebrew tongue, understood only as the Rabbi interprets it, many now use the English version. This class have introduced many reforms into their mode of worship—they now have their choirs, their organs, and their Sabbath schools. The Hebrew Christians, the converted Jews, in this country, number three or four hundred, and of this number nearly one hundred are engaged in preaching the Gospel of Christianity, or in a course of study preparatory to doing so.

A NEW MUSKET BULLET.—Some interesting experiments were lately made at Vincennes, France, to ascertain the accuracy in firing and distance traversed by a new musket bullet, proposed to replace the Minnie bullet fired from rifles. It is said that the new ball, independently of its superiority both in precision and distance, offers the remarkable advantage of being fired from a smooth barrel by which the rifle barrel can be dispensed with, which is so difficult to load and troublesome to keep clean during a campaign. Of the different projectiles, half as many more of the new than of the Minnie bullets struck the target 600 yards; and at 800 yards the respective number per cent. were 39 of the former and 14 of the latter. A still more extraordinary fact is, that the new ball will kill at a distance of 1,500 yards, while the rifle ball is not effective at more than 1,000 yards. Major Nepler, the Director of the Imperial School of Firing, is the inventor of the new bullet.

WORTH OF CHRISTIANITY.—We live in the midst of blessings till we are utterly insensible of their greatness, and their source whence they flow. We speak of our civilization, our arts, our freedom, our law, and forget how large a share is due to Christianity. Blot Christianity out of the pages of man's history, and what would his laws have been? What is civilization? Christianity is mixed up with our very being and our daily life; there is no familiar object around us which does not wear a different aspect because the light of Christian love is on it—nor a law which does not owe its greatness to Christianity—not a custom which cannot be traced in all its holy, healthful parts to the gospel.

SIR ALLEN PARK.

THE IMPERIAL EMBRACE.—A Paris correspondent of the *Nord* gives, on the authority of despatches received from the headquarters of the French army, the following respecting the interview of the two Emperors at Villafranca:

"When the two sovereigns met, their first movement would naturally have been to offer the hand; but the Emperor Napoleon said: "Sire, I come to you with sentiments of loyalty and cordiality of which you certainly partake. Let us embrace." And the two Emperors threw themselves into each other's arms."

BRICK, BRICK, BRICK!

P. C. HALE IS MANUFACTURING, AT the old Rogers' Yard, adjoining the Mississippi Rail Road, good common and Pressed Brick, which he offers in quantities from 100 to 1,000,000 at the lowest prices. Contractors and builders are invited to examine quality and prices before purchasing elsewhere.

Mr. Hale continues his old business of making the rough ways smooth, and is prepared to furnish earth from the river, and clean coarse gravel for walks and streets. Also, sand for bricklayers and plasterers.

COMMERCIAL.

MONDAY, August 8, 1859.

Money Matters, &c.

NEW YORK MONEY MARKET OF TO-DAY.—We have the following report of the doings in the New York Money and Stock Markets of to-day, by telegraph:

The stock market opened with a fair degree of firmness, and an advance of ⅛ @ ¼ cent was established on most descriptions, but at the close the improvement was lost, a reaction to sell being general. There was a decline of ¼ @ ½ cent in Hudson River; ⅛ do in Harlem preferred; ⅛ do in Cleveland & Toledo; Hudson River 20⅛; Michigan Central 39¾. The weakness in stocks may be attributed entirely to apprehension that the bank statement now preparing will be particularly unfavorable. The foreign news by *Nova Scotia* elicits but little discussion and is generally favorably construed. The firmest of the western stocks were Galena R. R. and the two Michigan roads. Canton fell ½; Del & Hudson ½.

The transactions in State stocks were large to-day—especially in Missouri 6's, which are ½ per ct. better. Tennessee 6's were also a shade higher. The supply of money among stock brokers is quite free to-day at 6 per cent on good collaterals, but the rate of discount is evidently hardening. The transactions in prime acceptances—say 60 days—are at 6@6.5 per cent., with more doing at the outside rates; gilt edge notes having three and four months to run are 7@7½ per cent. The opening business in Exchange for the Boston mail, indicate a dull market with a declining tendency. The leading drawers are asking 1,10⅝ on London, and 5.2½ on Paris; but few sales are effected. Good bank bills are obtainable at 1,10@1,10⅛. Nothing further done in Erie affairs—Directors have another meeting to-night.

The weekly bank statement is not completed, the figures of small banks being wanting, making last week's figures perfect. The specie shows a total of $29,01[illegible] 968, against $29,574,561 last week; a decrease of $572,[illegible] 593, more than $1,000,000 less than the week previous, a reduction of $297,662. Books for a subscription of $50,000 to capital stock of the Mechanic's Bank of Missouri, for use of the branch at Kansas City, are open at the Bank of the Commonwealth, in this city.

Breadstuffs, &c.

The following table shows the movements of breadstuffs at this point for the past 24 hours:

	Flour, bbls.	Wheat, bus.	Oats, bus.	Corn, bus.	Barley, bus.	Rye, bus.
Receipts.						
By M & M's R R	40	1,300	....	....	....	168
Shipments.						
To Buffalo, ..	1,085	11,000	....	....	....	....
To Collingwood	100	900	....	....	....	....
To Ogdensburg	200	....	....	....	....	....
Total	1,385	11,900	....	....	....	....

The few sales of wheat to-day indicate a decline of 5c since Saturday—on No. 1 at least, that grade selling at 90c. A car load of extra club sold at 70c. In the afternoon there was little or nothing done, dealers looking with some anxiety to the effect of the foreign news upon the New York market. Oats were quite active at last week's prices. Corn was also beginning to move, there being an increased shipping demand for it. Sales were at 50c in store, and 51c free on board. Potatoes underwent another decline, selling at a range of 40 to 50c. Nothing of any account doing in other articles No new wheat has yet been offered in our market.

CHICAGO, August 8TH.—Receipts: 407 bbls flour, 12,-794 bus wheat, 4,895 bus corn, 1,241 bus oats. Shipments: 16 bbls flour, 9,500 bus corn.

Under largely increased receipts this morning the market for new wheat, both winter and spring, broke down, and a decline of 5@6c on the latter took place both of standard declined 1c. About 16,000 bushels of all grades changed hands, at 90@94c for No. 1 red in store, 91c for No. 2 red in store, and 76c for old No. 2 red; 98c for No. 2 white in store, 98@99c for new No. 1 spring in store; 86@87c for old standard spring; and 80c for old No. 2 spring. A shipment of 5 000 bus new No. 1 red was made to-day to Buffalo. Four sales are reported. Corn opened quiet and heavy, but light receipts and an increased demand, the market became firm, and closed nominally 3c higher. Sales amounted to about 20,000 bus at 36c f. o. b. for canal, and 39@39 40c for No. 1 in store—the latter closing quite firm at 39½c for No. 1 in store. Outs more active, with sales of old crop at 25c f. o. b., and new at 25@29c on track. Rye firm. A lot of new No. 1 barley was sold this morning at 48c delivered. Highest rate realized at 52c. Nothing doing in provisions. New pork[illegible] tending downward—closing weak at 16@16c. Hides quiet. Lumber very dull.

THE HAY TRADE OF CHICAGO.—The hay trade of this city promises to become a most important branch of commerce. During the present season, owing to the high price of hay in the Eastern States, quite a new demand has sprung up for our upland prairie hay, and to supply it our hay presses are constantly at work, night and day. Yesterday we were apprised of a sale of 650 tons made by one firm, to be shipped to Buffalo, and we understand that parties are here from several parts of Ohio and Pennsylvania for the purpose of making heavy purchases.

The price at which the above lot was sold was $8 ₱ ton. In Buffalo, it is worth from $14@15 ₱ ton, and in Cleveland and Pittsburgh, we understand, it ranges from $14@16.20.

We occasionally see paragraphs in agricultural and other papers, speaking very disparagingly of hay taken from our prairies. One Chicago paper nothing so said it was useless. Those who have fed stock in Illinois know it to be far otherwise. Some years the crop is not as good as others, for grass like grain is liable to partial failure; but the bulk which grows on our high rolling prairies is generally good, and sometimes as nutritious as timothy. This season, we understand, the quality is excellent.

MILWAUKEE DAILY MARKET.

FLOUR—Inactive and heavy. Sales 50 bbls "Stone Mills" spring extra at $5.

WHEAT—Receipts still very light and market dull and lower. Sales 500, and 900 bus No. 1 spring at 90c; 300 and 700 bus extra No. 1 at 93c; 300 bus extra club at 70c.

CANAL EXPORTS—1,000 bbls flour, 30,000 bus corn.

FOREIGN MARKETS.

[Per Nova Scotia.]

LIVERPOOL, JULY 26.—Breadstuffs—The weather continued favorable for the crops. The breadstuffs market generally has an upward tendency, with the exception of corn. Richardson & Spence report flour quiet, but with no decisive change in advance. Wheat quoted 9d higher. Corn dull and declining. The prices are easier, but there is no change reported in quotations. Flour is quoted at 30s@34s. Wheat 9s@9s6d for red and 9s 9d@9s6d for white. New corn 5s10d@5s6d; white 5s@-5s2d.

Provisions—The provision market continues to have a declining tendency. Beef heavy and quotations nominal. Pork heavy and quotations nominally unchanged. Bacon dull. Lard quiet.

LONDON MARKETS, 26th.—Wheat 2s higher. Sugar firm. Coffee firm. Rice steady at a slight advance for all qualities.

Money Market—The money market is generally unchanged. American securities are dull; consols are quoted at 93.

CITY LAND OFFICE

WE HAVE THE FOLLOWING VALUABLE Property, which we are authorized to exchange for Eastern property, or improved or Dwelling Houses and Lots in Seventh, First or Fourth Wards:

The undivided sixteenth interest of fourteen thousand and sixty-six acres of unimproved Pine Lands, in Marquette county, Michigan. The lands are surrounded by pine lands in the neighborhood of valuable mines. Prefer having unencumbered property, but would exchange for property that is encumbered, provided the encumbrances are not too large.

Also five hundred and sixty acres of Heavy Timbered Land, in the State of Illinois, in a large settlement and only about two miles from the Mississippi river, and within one hundred miles of the city of St. Louis. Will also exchange this property for house and lot in the Seventh, Fourth or First Wards. The Lands are all free from any encumbrance. Title is perfect.

Also, for sale or exchange, fifteen lots and two lots, known as the Atlantic House, formerly the Hawkins House, Fifth Ward. Its situation for business is unsurpassed, it being near the depot of the Milwaukee & Chicago R. R., and immediately opposite the said Hotel six new brick stores are going up. This property will be sold on ten years credit without any money being paid down, with seven per cent. interest.

Also, a number of acres 25 miles from city limits, which we will sell for $2,500 each.

We have numerous calls from farmers to exchange city property for farms, and there is also an increased demand for farms from the large concentration which is now constantly going on. Any person who has property on the La Crosse Railroad it would be well for them to leave a list of same with us.

The Model Farm for Sale!

CRUMMEY PROPOSES TO
SELL THE MODEL FARM,
LOCATED IN THE
TOWN OF SUMMIT, WAUKESHA CO.,
Five Miles from Railroad Station.

THE MODEL FARM IS KNOWN throughout the West as the best farm that stands out of doors; there is 320 acres of land, 240 acres of which is under the plough, the balance is in an elegant Grove; is fine young orchard, 20 acres in extent, part of which is bearing fruit, forms part of the premises. There is a beautiful lake which is on the farm and the House, Barns, &c., are good enough for anybody. Any person wishing a home cannot find a better in the West and it will be sold cheap. If no purchaser is found I propose to offer the farm as security for a loan of a few thousand dollars. I want the money, and must not, from the order of from coming, but come at once, as money is my tool to sell it: the present time. Title clear and undisputable.

Five Miles from Railroad Station.

THE MODEL FARM IS KNOWN throughout the West as the best farm that stands out of doors; there is 320 acres of land, 240 acres of which is under the plough, the balance is in an elegant Grove; is fine young orchard, 20 acres in extent, part of which is bearing fruit, forms part of the premises. There is a beautiful lake which is on the farm and the House, Barns, &c., are good enough for anybody. Any person wishing a home cannot find a better in the West and it will be sold cheap. If no purchaser is found I propose to offer the farm as security for a loan of a few thousand dollars. I want the money, and must not, from the order of from coming, but come at once, as money is my tool to sell it: the present time. Title clear and undisputable.

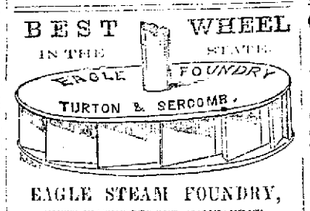
Machinery.

BEST WHEEL IN THE STATE



EAGLE STEAM FOUNDRY,
WEST WATER STREET, MILWAUKEE.
THE OLDEST ESTABLISHMENT in the STATE
TURTON & SERCOMBE.

MANUFACTURERS OF FLOUR, SAW and other Mill Gearing, together with Gearings of All descriptions; Steam Engines of the latest improvement; Brass and Composition Work.

Also manufacturers of the celebrated Turbine and Turtle Water Wheel. It needless to say, in reference to the powerful one, than any other wh. I manufactured. It is warranted to give higher effect and more of water than any other wheel. The velocity of the wheel is such that the expense of gearing up is less than any other wheel. There is no necessity of building Mills and Dams to suit the power of the water to flow the Wheel, which always remains about the same.

4th. It occupies less space than any other wheel—is placed inside the flume, near the surface of the water, and is never affected by frost.

5th. The wheel is very durable, being made of iron, and can be put in any place and attached to saw Mills, Grist Mills, and machinery of all kinds, at less expense than any other wheel. The velocity of the wheel is such that the expense of gearing up is less than any other wheel.

Together with the advantages above stated, we are ready to warrant the Wheel to equal in power to the following figures, for each foot fall of water.

In each wheel.....	52	100	horse-power.
12	"	75	100 "
12	"	50	75 "
12	"	25	50 "
10	"	12	25 "
8	"	6	12 "
6	"	3	6 "
4	"	1	3 "

Wheels of the above size can be driven from 400 to 1000 revolutions per minute. When sold, are complete with gate, bolts and chain, and ready for immediate use. They will be placed in the flume, which cost but little in expense than any other wheel.

The subscribers have the best of workmen, who will put them in any place in the most substantial manner, at reasonable rates. The Wheels can be delivered at a less price than any other Wheel in use.

W. H. SUTCLIFFE,
TURTON & SERCOMBE.

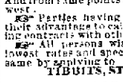
CERTIFICATES.

MIDDLEBURGH, CO., Dec. 1, 1858.

Dear Sir—In answer to your request for an opinion of the Fairchild Patent Water Wheel that you put into my factory for me, I take great pleasure in stating that I considered it a very superior wheel. I put out a Breast Wheel 10 feet in diameter, by 9 feet Buckets, and replaced it with one of "Fairchild's Patent" 12 inch Horizontal Turbine, and found it with no greater amount of water, and the motion is as steady as that of a steam engine. I do not hesitate to recommend it to all those who may need a durable, powerful and economical water wheel.

Yours truly and truly,
GEORGE D. DOUSMAN,
General Agent and Consignee.

THE 1859. THE 1859.
Western Transportation Company,



INCORPORATED 1856.
